OBJECTIVE

Artificial Intelligence and Data Science student with hands-on experience building AI-powered products using **Agentic AI, Generative AI, LLMs, Claude, ChatGPT, Gemini, and AI-assisted development tools**. Experienced in **rapid prototyping, product development, UI/UX, REST APIs, testing, debugging, and product iteration**. Interested in building real products in **startup and Founder's Office environments** with strong problem-solving and ownership.

EDUCATION

Bachelor of Technology in Artificial Intelligence and Data Science **Aug 2023 – Present**
Prathyusha Engineering College, Tiruvallur **CGPA – 8.28**

Intermediate Education **June 2021 – March 2023**
Sri Chaitanya Junior College, Tirupati **Percentage – 85.3%**

SSC / Grade X **June 2020 – April 2021**
Sri Sai E.M High School, Padmavati Nagar, Tirupati **Score – 600/600**

SKILLS

- **AI & Generative AI:** Agentic AI, AI Agents, Generative AI, LLMs, Prompt Engineering, Claude, ChatGPT, Gemini, AI-assisted Development
- **Programming & Web:** Python, Java, JavaScript, HTML5, CSS3, FastAPI, REST APIs
- **Product Skills:** Product Development, Rapid Prototyping, Feature Development, UI/UX, Product Iteration, Testing, Debugging, Problem-Solving
- **Tools:** Git, GitHub, Visual Studio Code, Android Studio, Docker, n8n, Lovable, Google AI Studio, Antigravity

INTERNSHIPS

Data Science Intern – Young Minds Technology Solutions Pvt. Ltd. **Jun 2026 – Jul 2026**

- Cleaned and analyzed 15+ Kaggle datasets using preprocessing techniques including missing-value handling and normalization.
- Built 10+ visualizations using Matplotlib and Seaborn to identify trends and communicate insights.

Web Development Intern – The Skybrisk **Dec 2025 – Feb 2026**

- Built 5+ responsive web pages using HTML5, CSS3, and JavaScript with focus on usability and consistent UI.
- Collaborated using Git-based workflows and tested/debugged webpages across 3 browsers.

PROJECTS

Rise & Shine – AI-Powered Smart Alarm & Productivity App

- Built an AI-powered Android product using **Lovable, Vite, Capacitor, and Android Studio** to improve morning routines through personalized interactions.
- Designed **UI/UX** and interactive wake-up challenges including math, typing, physical activity, and goal-based challenges.
- Used **Claude, ChatGPT, Gemini, and Lovable** for rapid prototyping, feature development, testing, debugging, and product iteration.

Agentic AI Personalized Startup Mentor

- Developing an **Agentic AI product** that converts startup ideas and founder profiles into personalized startup guidance.
- Built the backend workflow using **FastAPI, REST APIs, and Gemini API** to process user inputs and generate structured AI guidance.
- Used **Gemini, ChatGPT, Google AI Studio, and AI-assisted development tools** for rapid prototyping, testing, debugging, and iterative product development.

CERTIFICATIONS

- NPTEL Internet of Things Certification – Elite Category (71%)
- Completed Hands-on Training in Robotics and AR/VR Technologies.

ACHIEVEMENTS

- Selected at college level for Smart India Hackathon based on innovative problem-solving and project presentation.
- Participated in a 24-hour Hackathon and contributed to developing an innovative technical solution.
